

# THE TRAP

- ◆ The trap is made up of XRAY film, which is the preferred material by thieves; Simply because of the black color which is similar in appearance to the slot on the card reader.

# Placing the TRAP

- ◆ The trap is then inserted into the ATM slot. Care is taken not to insert the entire film into the slot, the ends are folded and contain glue strips for better adhesion to the inner and outer surface of the slots.

# INVISIBLE

- ◆ Once the ends are firmly glued and fixed to the slot, it is almost impossible to detect by unsuspecting clients.

## How is your card confiscated?

Slits are cut into both sides of the trap, This prevents your card being returned prior to completing your transaction.

# Retrieval of Confiscated card.

- ◆ As soon as the “Chump” is gone, and they have your PIN , The thief can remove the glued trap, by grasping the folded tips, he simply pulls the trap out that has retained your card..

# RECOMMENDATIONS.

- ◆ 1.- Once your card has been confiscated, observe the ATM slot and the card reader for any signs of tampering. Should you see the film tips glued to the slot, unglue, pull the trap out and recover your card.
- ◆ 2.- Report **IMMEDIATELY** to the Bank.
